CERTIFICATIONS

Google Data Analytics Professional Certificate

Coursera / Google
2025

PROFESSIONAL SUMMARY

Data analyst with **hands-on experience delivering 3+ end-to-end analytics projects**. Skilled in building **actionable and interactive dashboards** using Power BI and R, transforming complex datasets into clear insights for decision-making. Specialized in **financial data analysis**, and **performance benchmarking**, with a strong focus on analytical rigor and clarity.

CORE SKILLS

Data Analysis

EXCEL: advanced functions, PivotTables, data validation, scenario analysis

SQL: queries, joins, CTEs, aggregations, data cleaning

R: tidyverse, dplyr, janitor, data wrangling, EDA, statistical analysis

Data Visualization

Power BI: DAX, KPI dashboards, data modeling, interactive visuals

Tableau: interactive dashboards, calculated fields, data storytelling

R: ggplot2 visualizations, dashboard styling, visual storytelling

PROJECTS

Investment Strategy Performance Analysis (R + Power BI)

End-to-end quantitative analysis of a trading strategy: data ingestion, cleaning, KPI generation, risk metrics (Sharpe, Sortino, Max Drawdown), benchmark comparison and dashboard-ready outputs.

Real-Case Business Dashboard (Power BI)

Self-directed project in which I designed a fully actionable dashboard based on a real Spanish company's business case.

Portfolio Projects (R, SQL, Excel, Power BI)

Collection of data analytics projects covering ETL pipelines, exploratory analysis, statistical insights, interactive dashboards, and reporting for real-case scenarios.
